

# 2008-Based POPULATION PROJECTIONS NEWCASTLE

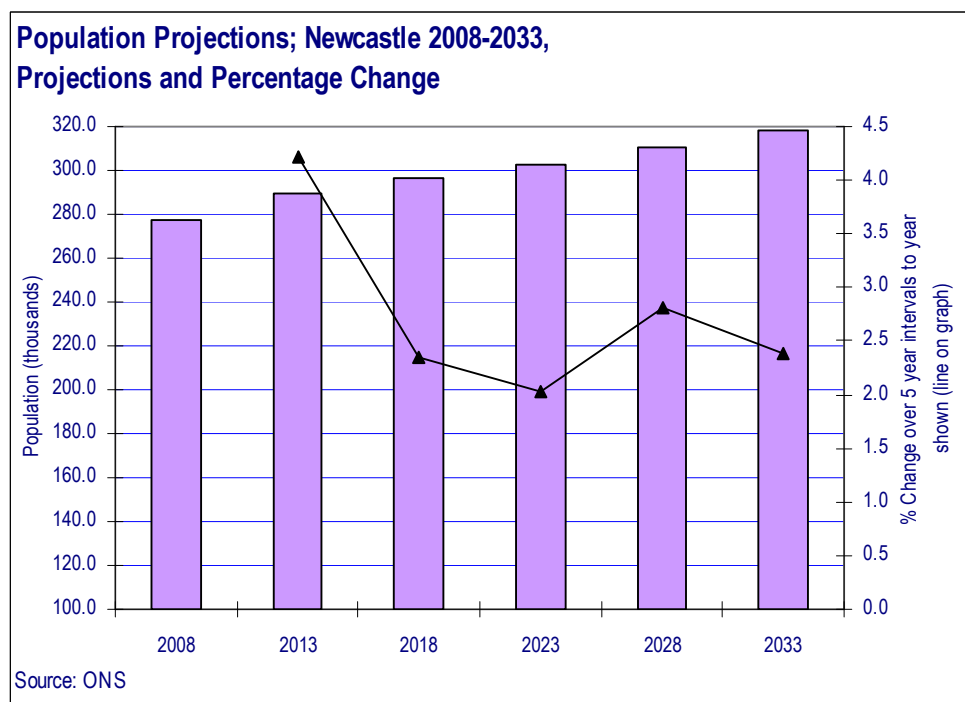

This bulletin provides a summary of 2008-based population projections for Newcastle upon Tyne

## KEY POINTS

### Population projections...

- The ONS projected population for Newcastle to 2033 (based on their 2008 Mid-Year Estimates) is 318,200. This is a growth of 14.5% (or 40,400) from 2008.
- Tyne and Wear is projected to have a 10.3% (or 113,300) growth over the same period.

- Newcastle's population growth is projected to be fastest in the 2008-2013 period, at 4.2% (or 11,700). This is the fastest period of population growth among all the Districts.
- The rate of population growth almost halves from the five-year period 2008-2013 (4.2%) to the following five-year period 2013-2018 (2.3%).
- Newcastle's population growth shows the greatest fluctuations over the period 2008-2033.
- Among the Districts, population growth is projected to be fastest in North Tyneside, up 18.0% (or 35,300) to 2033 - the same percentage growth as for England. Population growth is projected to be slowest in Sunderland, at 3.3% (or 9,400).
