¹ Figures quoted within this bulletin may not exactly match figures from other sources such as iQuanta. This is due to data extraction occurring at different times and also the impact of 'no-crimes' and 'statistically continuous' crimes.

² The National Crime Recording Standard (NCRS) was adopted by all police forces in England and Wales in April 2002 in an effort to improve the consistency of police recording and to better reflect the demands made on the police by victims of crime.
